

Fortemuk tried  
to stop  
his brother,  
as the lives  
of his  
faithful  
believers were at  
stake.

But  
Timouruk  
would not  
be appeased,  
his  
resentment  
and frustration was too  
deep.

Fortemuk  
lost more  
and more

of his  
believers

and he could  
not bear it anymore,

he became terribly  
angry.

And so

A terrible battle  
began

and the world  
was almost  
completely  
razed  
to the ground.

While Fortemuk  
had previously  
received  
additional strength  
from the many beings  
who  
prayed to him,  
the Titan of Courage  
was now plagued  
by grief  
and the loss of his  
believers  
and therefore  
his energy.

And so the Titan of Fear  
defeated his brother.

In order to absorb  
his energy  
and gain the same kind  
of appreciation,  
he devoured him.

But  
the energy  
could not find  
a place  
in his hateful body  
and  
escaped

Since the energy of the  
Fortemuk could not be  
absorbed, it spread  
over the world  
and new life  
manifested itself  
from it.

The planet could be  
repopulated over  
thousands  
of years.

The Titan of Fear fell  
into a coma due to  
exhaustion and remorse,  
but the world  
feeds off his body  
and the fear  
moves deep into it.

Some feed on  
others  
allow themselves to be  
consumed.
